INVOCATION

May the Light in me be the light before me
May I learn to see it in all.

May the sound I utter reveal the light in me
May I listen to it while others speak.

May the silence in and around me present itself,
The silence which we break every moment,
May it fill the darkness of noise we do
And convert it into the Light of our background.

Let virtue be the strength of my intelligence,
Let realisation be my attainment,
Let my purpose shape into the purpose of our earth,
Let my plan be an epitome of the Divine Plan.

May we speak the silence without breaking it.
May we live in the awareness of the background.
May we transact light in terms of joy.
May we be worthy to find place in the Eternal Kingdom OM.

PRAYER FOR THE YEAR

Wash karma in Space.
On the deep blue slate paint
ever-elevating colours,
ever at the Feet of the Master
in the Vaisakh Valley.

MESSAGE OF THE MONTH OF CAPRICORN

The northern coursing of the sun begins with the beginning of the 10th cosmic sign, Capricorn. The 10th house is the house of fulfilment. The sun represents the Self. The northern coursing of the Self fulfils the person.

Northern coursing means coursing from gross to subtle. When the sun courses in the northern direction for 6 months from Capricorn to Cancer, it is a great opportunity for the beings to avail the uprising energies on the planet. The Truth seekers can also tune up to such uprising energies and move upwards along with it. For those who know this secret of astrology, the upward movement continues to its highest point of illumination during the times of pass-over (Aries-Taurus).

From ancient-most times, Capricorn is seen as the Mount, while Cancer is seen as the pit. The Mount of Capricorn is indicative of the opportunity to move up from gross to subtle. The energies of Capricorn enable a good equation of matter and spirit that would enable the movement of the soul in the upward direction. Such energies are transmitted to the planet through the sunrise during the sunrise hours.

Those who are exposed to these rays consciously, receive the necessary adjustment in the tissues related to the body of the 5 elements. The related chemistry enables easy upward movement of the soul.

The secrets of Capricorn are manifold; it is sufficient to say that it is the dawn of the year. That it is the time of birth and rise of the gods in us; it inaugurates a period of 6 months for upward movements.

The fivefold body made up of 5 elements, consisting of 5 senses, 5 sensations, 5 pulsations and 5 limbs of action is compared to a five-pointed star and also to a five-limbed crocodile. The seeker is required to get released from the crocodile to reach upward to the highest states of awareness. The release of the crocodile is possible when equanimity is gained as between the 5 elements, 5 senses, 5 pulsations of the body. The morning sunrays in the month of Capricorn provide the necessary chemistry to work out such equanimity. Such is the importance of Capricorn.

May this be consciously held and may the seekers lay out a renewed programme for upward movement of Consciousness.

MESSAGE OF THE TEACHER

CALAMITY

Character building is primary
to practices of *mantra*, *tantra*, meditation etc.

The one with strong character is eligible for such practices.
Others may practise for the glamour of practice,
but in them neither the *mantra* nor the *tantra* or the meditation
causes fruition.

Let character be built in preference to occult practices.
White magic is possible to the one who has character.
To others it causes calamities.

GÎTÂ-UPANISHAD

- LORD KRISHNA -

THE KEY TO PASSION

The Scripture says: “Be detached and be dispassionate in your action”. Detachment and dispassion should be towards the results but not towards the acts. Action has to be with passion while one can be dispassionate with the result. Man suffers in action since he applies passion more to the results than to the work. Passion for the result should be substituted by passion for the work, passion for knowledge, passion for wisdom, passion for discipline etc. The teachings are always wrongly applied in matters of detachment and dispassion.

Again detachment is not physical. When persons have possessive instincts inside, even if they physically relinquish, they are subtly holding at the mental plane, causing the related tensions. Act passionately and be dispassionately at work is the Vedic commandment. The planets are passionate in their action and are dispassionate in their results. So is the tree and the animal. A true teacher demonstrates dispassion in results and passion in action. Learn to apply dispassion to the results but not to actions. Relinquishment of action is utter ignorance.

A WORD FROM MASTER CVV

UP-ROOTING

In the human body, impure and unnatural energy is rooted. This rooting has been happening in the body of a being over series of lives. These are deep-rooted impurities. You cannot uproot them by your own effort; you need a special technique of uprooting it, which you need to borrow.

I AM the technique that you need to invite into you to uproot the deep-rooted stinking, unnatural and impure things. I have come to uproot. I decided to uproot these undesirable things in you and lift you up and root you up in the sky, in the mid-air.

When the work of uprooting is on, your body generates heat during the morning and evening prayers. Drink much buttermilk or water.

I have come down only for you, to help you out. I have the technique to uproot all the undesirables in you in one life. All that you need to do is to offer you to Me on a daily basis with intent.

LORD MAITREYA

MAITREYA'S AGE

Some say: "The Age of Maitreya has come". Some others question: "How soon will it come?". We answer: "It depends on you". Friendliness is the seed for the Age of Maitreya. Friendliness is the foundation stone for the New Age. Friendliness is the basis of all interactions as between the members of the Hierarchy. Friendliness has in it the strength of trust, faith, confidence, sharing, loving understanding etc. Today men can assess how friendly they are to the co-beings.

Enmity seems to be the key word of human activity today which is reaching its heights. When friendliness is a mirage even among the new age groups that tend to follow the teachings, how can we expect friendliness at large in the human beings? Man still likes to differ, to divide and to dispute. He prefers unconsciously conflict to harmony. Friendliness as the keynote was inaugurated in our circles as early as 5000 years ago.

The Hierarchy keeps teaching friendliness; the members of the Hierarchy demonstrate friendliness. It is for the members of the human family to invite friendliness into their beings and improve the quality of their actions. The word Maitreya stands for friendliness. Wherever friendliness exists, there Maitreya manifests. When friendliness disappears, Maitreya too disappears into subtle planes.

MASTER MORYA - MARUVU MAHARSHI -

CULTIVATING THE DAY

"Cultivate the day
throughout the daylight
with the spear in hand,
with inspiration in breath
and alertness in action."

"When the daylight was thus cultivated
in the night the stones flower the jasmynes,
the doors of the Golden Temple open by themselves,
the Swan sings Celestial Songs".

Thus the Creator
gave us a riddle to solve.

Contemplate upon the given symbols
and translate them into actions.

MASTER KOOT HOOMI
- DEVAPI MAHARSHI -

THE FIRE OF JEALOUSY - 2

Jealousy is the needle that consistently and constantly pricks you.
Jealousy is the fire that burns away the qualities of the heart.
Jealousy destroys the fruits of the acts of goodwill.
Jealousy prevents the approach of the Divine to you even when you pray.
Jealousy disables transformation.
Jealousy arrest thoughts of goodwill.
Jealousy causes fire in mind and excessive heat in the body.
Jealousy fills the person from head to foot with poison.
The jealous ones are the absolute blind ones.
Let not jealousy approach you.

MESSAGE OF MASTER E.K.

THE LABOURER

The aspirants labour much in the field of mind and in the field of *buddhi* (wisdom); they are attracted to varieties of rituals and the study of various books. They get engaged in multitude of practices. This labour has no result until they labour to see Me in all in the labour that they do.

Learn to see Me in all that is visible, in all that you do, in all that you see, in all that you listen, taste, and touch; then, you directly reach Me.

The aspirants do many things, but do not see Me; hence they do not reach Me. To reach Me is simple, but the complicated mind of the aspirant engages itself in the complication and gets imprisoned in it.

When a frustrated aspirant is seen, we smile with sympathy. The only way, for anyone in Creation, is to see Me and no other.

Verily the seer is also no other than Me. The seer in you is Me, the listener in you is Me. It is all Me as many.

Labour to see Me, then every labour becomes an interaction with Me. If you miss Me and labour, you just remain a labourer.

VIDURA

WISDOM TEACHINGS

To the self-transforming aspirants,
the following are the obstacles:
laziness, pride, mistake,
fickle-mindedness, non-adaptability,
arrogance, and miserliness
(possessiveness).

SHIRDI SAI SAYINGS

FOOD-OFFERING

Offering of food stands primary to other offerings. Remember that the Lord Himself has come down as "food and vigour". All the beings generate through food, flourish through food.

Offer therefore food of good quality with reverence and love. The weak, the lame, the blind and the sick need to be served first, the friends and relatives are to be served next. The host shall do better to stand last to all that are to be served.

CHILDREN'S SECTION
THE DOCTRINE OF ETHICS

Rejoice not as father
at the birth of the son.
Joy is verily yours when
the son is socially honoured.

CHILDREN'S SECTION
THE RIGHT USE OF FOOD

What to eat?

We have to eat chaste food - food prepared in good environs. The place where food is prepared shall have to be clean and neat. The food material that is cooked shall have to be fresh and lively. The vessels used for cooking should also be neat and clean. This is known to many. This is not enough! The persons who cook the food shall also have to be clean and neat not only outside, but inside also. That means, the one who cooks should not entertain unclean thoughts while cooking. If one does so, one is also cooking the unclean thoughts into the food and serving. Likewise, one can also cook thoughts of goodwill into the food and serve. The former breeds ill health and the latter breeds good health.

Hence one who has cooked the food is more important than what has been cooked. It stands primary. A Yogi makes sure of the cleanliness of the person who cooks than the richness of the food that is served. He mostly lives by foods/fruits given by Nature. For Nature is bountiful and also full of Love for its beings. Mother Nature nourishes us with goodwill!

EXTRACTS FROM THE TEACHINGS THE HIGHER ASPECT OF LIBRA, Part IV

Dr. Sri K. Parvathi Kumar

Peñíscola Group Living, Spain, June 2003

In "Mystic Mantrams" we have the *mantra* 'Higher bridge beginning'. The Master of Aquarius is willing to come down from Aquarius. The point of Aquarius is the Eye of *Siva* in us, the divine will. The *Ajna* is our third eye. So, the Eye of *Siva* in us is far superior to our third eye.

So, from the Eye of *Siva* which is our superior *Ajna*, there is the bridge built up to Gemini. That is from the Eye of *Siva* in us to our third eye, and from our third eye to our pituitary body which is called the eyebrow centre - please remember the eyebrow centre is different from *Ajna* - and from pituitary via the upper palate / lower palate up to the throat centre the Master descends and pulls us up from Libra.

To cooperate with his work, we say in the invocation:

From the Avatar of Synthesis who is to come,
let his energy pour down in all kingdoms,
may he lift up the Earth to the kings of beauty.

We have to cooperate for the lift up which is being offered in the new age, and the energy can lift us up into the *Akasha*, because the throat centre relates to *Akasha* ether. That is why he promises etheric existence, contrary to the mundane existence. That is the beauty of the work on hand, and hence we have a responsibility for our throat. We have to be careful in our judgements. We have to be very careful in our criticism, and we shall be very, very careful in passing opinions about others, because the use of the throat centre is the most important responsibility of a disciple.

To clean up the throat centre the disciple should utter sacred sounds, seed sounds, mantras, prayer at least for one hour daily. Do you know the meaning of *Visudhi*? *Sudhi* means purity. *Visudhi* means extremely pure. If you can utter only pure sounds through your throat centre and not utter sounds which are not pure, in twelve years time the alchemy happens. That is the beauty of the throat centre. It can purify all the lower centres and put you in the throat centre. The master consciousness can only come up to that point of purity, and from there he sends his rays for shift up.

If the disciples wish to cooperate with the Hierarchy, and if the aspirants are aspiring to do so, they must hold themselves responsible for all that they utter through their throat centre. You can judge ourselves, instead of judging others, how we are using our throat centre. If the throat centre is well regulated through right speech, discipleship is possible. If the throat centre is not well used, whatever practices you do in terms of discipleship, they are destroyed by yourself. It means, we clean up the room and again make it dirty. We clean up for some good activity to manifest, but then we ourselves spoil that which we have cleaned.

The scriptures say, "It is like the elephant's bath." If the elephant takes bath in a lake, it totally cleans up the body with its trunk. When it is on the land, it picks up with the same trunk a lot of dust and puts it all around its body. For us it is the same organ, the tongue. It is that tongue which utters forth the sacred sounds, and with the self same tongue you pick up dust and put it all around inside the body.

When the meditation is over, people must speak. There is a compulsion to speak. After the class, immediately we have to speak, and generally we have to speak. Please, remember, sound is the key. The Aquarian energy is invoked by Master Jupiter, and he channelizes it to the planet and this humanity, and the principle quality of Jupiter is sound. That is why in the books you find that sound is the ultimate key for transformation. Through sound only the Aquarian Master has planned to transform, and the centre through which sound is worked out is the throat centre. That has to be kept clean. It means that we have to speak clean. Today people are generally manipulative in their speeches. There is such huge manipulation of speech. Then being critical, judgemental. Apart from that there is a general huge waste of the faculty of speech. This is what delays the humanity's lift-up. In any work of the divine plan there is a part to be fulfilled by us, while there is a part that will be worked out by the divine. The divine energy relating to the new age already arrived. We are not yet ready, because we are not cooperating to raise to the throat centre. That is why the books say, "The throat centre is the centre relating to discipleship."

Rising from Libra to Gemini through *Antahkarana* is a subjective work, a hidden work, and hence the path of discipleship is said to be governed by Scorpio. Scorpio stands for *silence, service, sacrifice and secrecy*. These are the four pillars of Scorpio. A noble Scorpio has these four qualities. These four qualities are also the qualities relating to the 7th ray activity. The 7th ray always speaks of masonry. Masonry means 'building the inner temple' on the basis of which work can be carried out in the outer temple.

This is how Libra, Scorpio, Gemini, they are all connected with the 7th ray, and Gemini has its opposite in Sagittarius. These are the related signs of masonry. But today masonry is in conflict. It touched the bottom of its con-

sciousness and is trying to revive. Today masonry is affected by money. People who have money and power are occupying the Masonic groups. They don't have the attitude to serve and sacrifice. Without service which leads to sacrifice masonry has no meaning. That is why it is said: "A mason builds his temple in pitch darkness." *Silence, service, sacrifice, secrecy* - these are the qualities of masonry.

Masonry went into alcoholism, lavish parties and showy regalia. That kind of a situation led to a lot of passion, and they have become slaves of alcohol, sex, money, and comfortable life. From that state now the 7th ray is re-emerging. The 7th ray Master also cooperates with the new age energy, and with the help of such energy, he intends re-structuring masonry for the benefit of the humanity.

The message of today's masonry is:

to cut the throat - stop speaking all kinds of nonsense,
to pull the tongue out - to change the tongue,
to throw the body to the vultures - sacrifice.

If we are willing to work with sacrifice, if we are willing to restructure our throat and our speeches, we are fit to be with the work of the 7th ray, whether or not we are a member of a Masonic lodge. Today there are many Masonic temples working with the inspiration of the 7th ray Master, and these groups are not members of the Masonic lodge. There is a new beginning of Masonic order. It is happening in South America, and it will very soon start in Europe, and slowly get into the United States, and their headquarters are in Asia. The headquarter is shifted from London to a centre in North of India, nearer to Himalayas. This is of course a side-issue, but a related issue.

to be continued

PARACELSUS HEALTH AND HEALING

THE ENERGIES OF LIFE

Man carries healing energies depending upon his dynamic, positive and serviceable nature. In truth, the energies of life, health and healing are in the surroundings. Man floats in such energies. He continuously receives energies of life. Life is in him and he is in life. He is regularly a receptor of life energies for his own purpose. But he can also be a transmitter of such energies. As said earlier, a dynamic, positive and service-oriented person, with love for the fellow beings, can be a moderate transmitter of such healing energies. When he does so professionally, he is called a healer.

Just like a magnet transmits its energies to the surrounding iron piece with or without its touch, a healer also can transmit energies with or without his touch. Just as magnets are used for the release of energies blocked, magnetic healing energies can also be transmitted to clear congestion, blockages (and even tumors!?)

Sickness is generally due to a blockage of life energies. When such blockages are cleared, health is the result. From ancient time, positively oriented persons have been experimenting with these energies, which they invoked from the natural surroundings. In the East there were people who relieved people from paralysis, from blood congestion and injuries. Many soft-natured, loving but fearless individuals conducted such healing, aligning themselves with the surrounding life energies. These are generally theistic persons. Some of them had scientific approach and some others, faith approach. Today's faith was the past science, and the future science too, when explored.

Paracelsus, Mesmer, Hahnemann are some of them, more known healers in the West than others, for their scientific approach. Today, man is looking for many alternative ways of natural healing in preference to eating enormous quantities of medicines. In this context, research is in progress in pockets, here and there. This needs systematization in order to be able to find ways to link up to the subtle life that surrounds us. Life enters into us not only through inhalation of oxygen, but also through the sunlight. The science of yoga says that the rays of the Sun transmit life, and such life is received by

man through the centres at the shoulder blades and also through the centres at the sacral. With the latest equipment, the transmission of rays into the human body and its energizing the human system can perhaps be studied seriously. Life also enters into man through food and water, besides air and light. This study of entry of life into the human system is of paramount importance, more than the study of life just within the human system. Life force should be seen as a stream flowing into and out of man. Its free flowing is his health; its congestion is his sickness.

let Light stream forth
into the minds of men.
Let light descend on Earth.

From the point of Love
within the Heart of God
let love stream forth
into the hearts of men.
May Christ return to Earth.

From the centre where the
Will of God is known
let purpose guide the little wills of men,
the purpose, which the Masters
know and serve.

From the centre which we call
The race of men
Let the Plan of Love and Light
work out
And may it seal the door
where evil dwells.

From the Avatar of Synthesis
Who is to come
let His energy pour down
in all kingdoms.
May He lift up the Earth to the
Kings of Beauty.

The Sons of Men are one
and I am one with them.
I seek to love, not hate.
I seek to serve and not exact
due service.
I seek to heal, not hurt.

Let pain bring due reward

Let the soul control the outer form
and life and all events,
and bring to light the love
which underlies the happenings
of the time.

Let vision come and insight.
Let the future stand revealed.
Let inner union demonstrate
and outer cleavages be gone.

Let love prevail.
Let all men love.

Master D.K.

The best healing that can be done to the dying person
is to gather in group surrounding the person
and utter OM feebly.
It makes the departure effortless to the dying one.

This is the last and lasting help
that one can do to the departing one.

Learn the value of OM,
which helps a good departure
and hence a good arrival too.
