INVOCATION

May the Light in me be the light before me
May I learn to see it in all.

May the sound I utter reveal the light in me
May I listen to it while others speak.

May the silence in and around me present itself,
The silence which we break every moment,
May it fill the darkness of noise we do
And convert it into the Light of our background.

Let virtue be the strength of my intelligence,
Let realisation be my attainment,
Let my purpose shape into the purpose of our earth,
Let my plan be an epitome of the Divine Plan.

May we speak the silence without breaking it.
May we live in the awareness of the background.
May we transact light in terms of joy.
May we be worthy to find place in the Eternal Kingdom OM.

Master E.K.

PRAYER FOR THE YEAR

All names together utter the name of God.

A prophecy thinks from darkness to light.

Prophecy is fulfilled.

MESSAGE OF THE MONTH OF LIBRA

Libra stands for the balance. It indicates balancing of the subjective and objective energies, the subtle and gross existences, the verticals and horizontal. Libra is the point where the subtle and gross meet, the subjective and the objective meet, the verticals and the horizontals meet. It is also the mid-point of inhalation (*Prana*) and exhalation (*Apana*). It is the *Samana Prana*. The one who balances the inhalation and the exhalation is the one who stands in *Samana*. Balancing of the two *Pranas* is not possible unless one balances the inner and the outer lives. When such balancing happens man is said to have accomplished *Pranayama*. *Pranayama* is mostly seen as the acrobats of breathing. Unless man learns to balance all aspects of life and learns to balance the inner and outer, it does not happen. Let the month of Libra lead one to that golden middle point from where there is a direct Path to experience the Soul in the opposite sign Aries.

To those who do not pick-up the message of Libra, Libra leads to passion and the related indulgences.

MESSAGE OF THE TEACHER

MASTER OF THE MASTERS

The Divine can be in form and out of form. The form of the cosmos too is his form. He moves at times in the body. His movement in the body is different from our movement in the body. His holding the body is different from our holding the body. Our being in the body is like a prisoner in the prison, in the sense, the knowledge to move out and move in is not yet there. He carries such knowledge. The knowers also carry such knowledge and yet they are not on par with the Divine. Even for the knowers the body is prepared. For the Divine it is not so. He prepares the body and moves in and out of the body, be it the cosmic body or the individual human body. The Divine is therefore the Master of the Masters. The Masters of Wisdom impart the knowledge to experience Him in you and around you. To be one with Him is the goal set. It is called fulfilment.

GÎTÂ-UPANISHAD
- LORD SRI KRISHNA -
THE PATH OF SURRENDER - 2

Dear Arjuna, the Path of Surrender also demands absence of malice. It also demands focussed attention to one's own work. Thus in all, four qualities are demanded on the Path of Surrender.

1. Lack of personal desire.
2. Non-attachment.
3. Lack of malice.
4. Focussed attention to one's own work.

Mind you! these qualities should be present at all times. Such one is led by the Divine. Such one is under the total protection of the Divine. By such qualities man stands at once in liberation. Only the brave ones can relinquish the desire, the attachment and the malice and devote themselves for the ordained work. They are rare in all ages. More so, in the age of Kali.

MESSAGE OF MASTER CVV
THE PRICE YOU PAY

The Yoga I impart has the quality of speeding up. This is due to the stimulation of Uranus in you. In consequence you are stressed and pressed with too many events within a short time. You should learn to accept stress and move forward in Yoga. Even for the tension and stress, practice of My Yoga is the solution. As much as there is stress, so much you anchor in Yoga. Normally you do the contrary. As the stress in life grows, you cease to practice Yoga. That's where the trouble for you is. Know that the stress is the price you pay Me for the Yoga that I impart. The one who does the prayer twice daily, regardless the stress, is fulfilled of My Yoga and stands in life earlier and serves better.

LORD MAITREYA THE LEADERSHIP CRISIS

There were too many hopes and aspirations about the new age, the Aquarian age. Innumerable efforts are being made to usher in the new life. Man is trying to adopt or adjust to the changing world. Yet the new age is not yet. The new life is not yet.

Wars are being conducted for peace! In the name of freedom subjugation and suppression of the weak by the strong is continuing. The dirty hunger for power and money is growing. The promoters of peace are at unrest. Patience does not seem to be anymore a civilised quality.

It reminds us of a familiar situation, which repeats itself in history. 'The Gospel is in the hands of the devil. Devil quotes scriptures.' Today, leaders and governments that are impatient, restless and that are thirsty for money and power are the advocates of peace, freedom and co-existence. Their efforts lead them to their nemesis. They cannot transmit the energy of the Gospel since they do not carry it in their content. They have no time to look into themselves. If they do, they die. This is the crisis of leadership.

MASTER MORYA - MARUVU MAHARSHI - HALF-HEARTEDNESS

Half-heartedness is dangerous. The faith and the belief today are suffering from this symptom. Half-cooked food cannot be eaten. Half way through the forest you are in the hands of ferocious animals. Half way through sea travel sinks you to the bottom of the ocean.

Changing decisions half way through leads man to the dead-end. One would know that the decision one makes is a commitment. This commitment is totally lacking for want of patience in many of the aspirants. They are neither useful to themselves nor to others. They are neither in this world or the other. They remain useless daydreamers who confuse others with their half knowledge.

In ancient times, people demonstrated commitment even if it was fatal to them. Commitment was seen more valuable than life. Changing sides and changing values according to convenience is a cheap way of living, which is considered as the principle of expediency. It is application of a right principle in a wrong context.

Changing spouses after giving commitment has become normal in the human society. It is fashion too. What is the guarantee that such persons also do not change their ideologies and even their teachers? The teachers are the committed ones. The people have to learn the quality of commitment and get out of the sickness of jettisoning the commitment for convenience. Look into yourself, to your commitment and stand by it. I look for this quality in you.

MASTER KOOT HOOMI
- DEVAPI MAHARSHI -
RARE EXPERIENCE

Discipleship is to become an instrument of God upon earth. Once one is God's instrument, things happen through him. He remains a witness to all that is happening while he is also the doer. It is the state to experience and cannot be spoken of or communicated through the language. It is the state of transcendental action. The individual-being merges into the Divine and the Divine enters into the being and conducts. For all worldly purposes the individual being seems to be in the action, but it is the Divine.

The last three years of the life of Jesus is a demonstration of this. The first 10 days of the war of Mahabharata was likewise witnessed by the grand sire Bhishma. He saw the Lord functioning through Arjuna and attracting the Souls into Him. Arjuna was not as much aware of what was happening, as the grand sire and also as the Lord. The grand sire was thrilled of the grand act of the Lord through His disciple. The ability of the Lord to function through a Soul was amazing to him. The beauty was he (the grand sire) could see it much better than the Soul (Arjuna) through whom it was happening. Arjuna, being the son of mind, was feeling that he was fighting the war. But the truth was, Arjuna was just doing the labour, while Lord Krishna was absorbing the Souls into Him liberating them from the envelopes of flesh and blood.

The grand sire saw the opportunity and sought to be liberated by the Lord and submitted himself. Only the Lord and the grand sire knew what they were doing. It was a state of ecstasy from the part of the grand sire and of utmost compassion from the part of the Lord. Such experiences are rare even to initiates.

MESSAGE OF MASTER E.K.
PRESENT AT ALL TIMES

It is ignorance to think that the all-pervading Lord has no eyes to see and no ears to listen. He is present at all times. He sees and listens through the surroundings. He sees and listens from within you. Wherever you are present He too is present. Link-up to him in you and in the surroundings and move forward in the Path.

VIDURA WISDOM TEACHINGS

The accomplished one
shares with the friend,
feeds the family to fulfilment,
and eliminates opposition.

SHIRDI SAI SAYINGS

DHUNI & ASH

The fire place should remain lit up always. It reduces every form thrown into it into ashes. It reminds you that all forms are ultimately reduced to ashes through fire. Fire remains and the remains of form are ashes!

Ashes represent forms sanctified by fire. Hence the ash is sacred. It cannot be burnt by fire any further. The work of fire is complete with it. It needs no further transformations, such is its sanctity.

SRI RAMAKRISHNA

MAYA AS THE COSMIC POWER OF THE LORD

Maya is to Brahman what the snake in motion is to the snake at rest. Force in action is Maya, force in potency is Brahman.

As the water of the ocean is now calm and next agitated into waves, so are Brahman and Maya. The ocean in the tranquil state is Brahman, and in the turbulent state, Maya.

The relation of Brahman to Sakti is that of fire to its burning property.

Siva and Sakti (Intelligence and Energy) are both necessary for creation. With dry clay no potter can make a pot; water also is necessary. So Siva alone cannot create without the help of Sakti.

The snake itself is not affected by the poison in its fangs; but when it bites, the poison kills the creature bitten. Likewise Maya is in the Lord but does not affect Him, while the same Maya deludes the whole world.

CHILDREN'S SECTION

THE DOCTRINE OF ETHICS

Aspire not for others'
wealth and woman,
fall not to flattery,
sink not to criticism.

CHILDREN'S SECTION

THE RIGHT USE OF FOOD

Food in the Aquarian Age

In the Aquarian Age*, the predominant element that rules the planet is AIR. If one knows how to utilise air to absorb life force, he need not eat much. You remain energetic and yet do not carry the heaviness of food in you if you follow the technique of Pranayama - the technique of breathing that regulates Prana - the life force. As you eat less and less, while remaining as energetic as you should be, you tend to be lighter in weight. In fact the tendency today is not to eat as much as our ancestors ate. Our bodies are also evolving and hence they do not accept and assimilate as those of our ancestors. In Aquarian Age man started flying with aeroplanes. He even reaches the stage when he can fly himself, without the aid of aeroplanes! This is a possibility offered by the Aquarian Air. Man slowly evolves and lightens his body and learns the technique of reversing the gravitational pull of the Earth and thereby he flies. The ancients demonstrated this technique in the distant past. It will become a reality in future. Food habit plays a role in this game.

* AQUARIAN AGE

When the Equinox moved into Aquarius, the Aquarian Age began. It happened around the year when Queen Victoria was coronated.

The Equinox moves in the anti-clockwise direction at the rate of one degree every 72 years. It takes 2160 years for the Equinox to pass through one Sun sign (30 degrees x 72). It takes 25,920 years for the Equinox to move through the Zodiac of 12 Sun signs (2160 x 12). This is called a Great Cycle.

When the Equinox was moving through the Sun sign Aries, it was called the Arian Age. When it was moving through Pisces, it was called the Piscean Age. It is now passing through Aquarius. Hence it is called the Aquarian Age.

BOOK REVIEW

TRIANGLES - AN ESOTERIC APPROACH

The threefold activity of mind is inevitable in our daily routine although we can never avoid a triangle which is around us. If you want to open a door with the key, you are there as the one, the key is there as the second and the attempt is there as the third. If you want to read a book, you are there as the reader, the book is there as the second item, and the process of reading is there as the third item. If you want to do anything, you have the triangle composed by the doer, the deed and the done. Thus everyone has his own triangle in the process of doing anything in this world. No one can avoid this triangular process in any branch of activity.

MARRIAGE - A SACRAMENT

Marriage is an important sacrament to the human being. It sanctifies the one who marries. It purifies and transforms. Copulating is different from marriage. Animals, birds, insects copulate. Man marries. There is a difference between the two. If man understands marriage as a licence to copulate, he is no better than a beast. There is always a higher purpose in every sacrament and marriage stands out as the most important of such sacraments.

The Vedic rituals are generally elaborate and lengthy while much essence is contained therein. Dr. Kumar conceived the whole ritual in a nutshell and presented it in an universal manner. It is adopted by any couple proposing marriage in a sincere way.

NEWS - REVIEW TOURS OF THE TEACHER

Extracts from the WTT-Europe Annual Report 04/05

7. Switzerland

14-17 December 2004, Interlaken

On the way back to India the Master made a short stop in Switzerland. There was a meeting with the Executive Board of WTT-Europe for organisational purposes.

8. India

December Call 2004, Bangalore.

The December Call took place from 28 to 31 December 2004 in Bangalore, India. Eight member from the European brotherhood (7 from Gopura group) took part in the seminar and the celebrations. The group of Europeans was very warmly received at the airport at 2.00 o'clock in the night by the Bangalore Brotherhood. The group could enjoy the same attention and care during the next days.

The Master spoke very deeply about the 24 Commandments given by the grand Lord Sanat Kumara.

- "Practice Harmlessness in Thought, Word and Deed."
- "Learn to Be. This you can learn in the Presence of Sad-Guru."
- "Whatever work you do keep the welfare of the society as your ultimate goal."

Another highlight was a masterly musical presentation with the Vena, which put the listeners into a meditative mood.

There were good and constructive talks between the Master and the Bangalore group. The result is that in future there will be a more intense cooperation with the WTT-Europe. The brotherhood will ascertain if the Paracelsus magazine can be printed in Bangalore, so that the magazine can be offered in India to an affordable price. Another cooperation has come about for the WTT-website.

EXTRACTS FROM THE TEACHINGS THE HIGHER ASPECT OF LIBRA, Part XIII

Dr. Sri K. Parvathi Kumar

Peñíscola Group Living, Spain, June 2003

The metal relating to Libra is iron, and iron is the metal that can be easily magnetised. In the presence of a teacher it gets magnetised faster. That is why two essentials are recommended for the student of Pranayama: serving the teacher and the group unconditionally. If you do that, the process becomes easier, and you reach the 6th step of Yoga called Dharana, where you realise that you are holding the body, and you are not held by the body. It is not like the bird in the cage. The bird is holding the cage with its beak. If it wants, it can be in the cage. If it wants, it can be out of the cage and move out and come back. That is the freedom of the 6th step of Yoga.

The number of Libra is also number 4. It is an airy element which is number 4. Libra relates to Pranayama which is the 4th step, and it is in relation to human beings who represent the 4th kingdom. So, number 4 is the predominant number for Libra, and you have to work with air in Aquarian age. This is how from Libra you can take to a vertical path and not fall into the night of awareness, into the darkness of Scorpio. That is how people utilise the sun sign Libra for vertical rise. As you enter Libra, work consciously with air and rise vertically, then go to Aries, where you don't have to go through the wheel of the other six sun signs. Likewise there is also such facility at Sagittarius. In the wheel of time, there are certain moments where you have a short cut through time. So, for such persons there is no fall in Scorpio. That is how the work is carried out.

When once the work is accomplished in the manner that is briefly informed, then there is the unfoldment of the lotus of Sahasrara, and you experience the gem of the lotus. To accomplish this highest state of awareness a symbol is given for meditation. Imagine an unfolding lotus of thousand petals. Imagine the Mother sitting in the lotus with all her resplendent colours, and in her right hand she is holding the unfolding lotus, and in the left hand there is the wheel, that destroys Karma and enables you to rise up to her. So, you pray the Mother with that symbol seeking her cooperation to destroy your Karma and cause unfoldment in you. The wheel exists in you as the chakras. The chakras shall have to cease to give place for the lotuses. Chakras are of encircling nature. Lotus has the unfolding nature. Seek from the Mother destruction of your individual Karma, and also seek from the Mother the unfoldment, so that you can join her at her feet and conduct the work according to her plan. That is how the most sublime symbol of Libra is given. That is what is worshipped as Durga or Lalitha in India. Initially it is Durga. That is the

Mother sitting on the tiger, then there is the Mother sitting on the lion, and now we have the Mother sitting in the lotus.

Depending upon the degree of accomplishment you are seeking, the symbol is given. Among all the Tantra, the Tantra of Lalitha is considered to be complete, and it is given to humanity by Master Jupiter. Only its sundry details are available in Tibet.

The sun sign Libra opens doors into creativity and also into subjectivity. It is centripetal and centrifugal. It can radiate from centre to circumference and also converge from circumference to centre. All this work is the work of the Mother who is considered to be the universal consciousness and who expresses herself out of the seeming nothingness. She springs from spirit as a point, called the Bindu. She bulges out in all the 360° and in all the three dimensional ways causing the different planes of existence and enabling formation of the rulers of these planes of existence and also enabling the beings to live in these planes of existence. When she springs out, the creation happens from subjectivity to objectivity, and when she withdraws, the whole creation withdraws into her, and she herself withdraws into the Absolute.

To enter into the objectivity and also to exit from objectivity, the path is with the Mother as Libra. That is why Libra is seen from ancient most times as the path of Antahkarana. In us also Antahkarana Sarira can easily and quickly be formed, if we start working with the pranic principle of Libra. The pranic principle of Libra is Samana Vayu which is the equilibrating air of inhalation and exhalation. This has to be consciously practised. When you regularly and consistently work with inhalation and exhalation, the two respirations will find their agreement in Samana Vayu which exists between the heart centre and solar plexus. Once the bridge is built, with the help of Samana Vayu you can ascend in your being and prepare the Antahkarana Sarira up to Sahasrara. That is why this Samana Vayu is most important for easier and quicker accomplishment. It will lead us up to Sahasrara, when regularly practised.

Concurrently with this practice, you shall serve the group of society and also be obedient to the teachings of the Master whom in your conscience you have accepted. Serving the Master is living by the instructions he has given through his teachings. Only then the Master feels that he is served.

So, these two requirements along with the practice of Samana Vayu will help us to build the bridge of Antahkarana and to accomplish the 4th, 5th and 6th steps of Yoga which otherwise do not seem so very easy. This is one of the sublime secrets of Libra. In the process of building the Antahkarana the etheric chakras in you transform into lotuses, and the symbol to be meditated in this context is the Mother sitting in the lotus, a lotus of thousand petals, holding an unfolding lotus in her right hand and a wheel in her left hand. The wheel is helping us to neutralise our Karma and the lotus is helping us to unfold the consciousness within.

When once man reaches the Sahasrara and finds himself at the gem of the lotus, it is considered to be the highest state of awareness that man can reach in the human body. The two great beings that achieved this in this cycle of human race are Lord Maitreya, the Christ, and Lord Buddha. They have decided to remain on the planet and help beings that are inclined to reach that state of awareness. Around these two great beings, the Hierarchy relating to this planet has formed. Lord Maitreya stands out as the grandest Master of the 8-fold path of Yoga and Lord Buddha extends his cooperation to Lord Maitreya in elevating the beings into higher states of consciousness. This is an essential aspect of Libra, and it is the importance of Samana Vayu.

I shall give some more details about Libra:

The colour of Libra to start with is crimson-red. That is why in ancient times, especially in the Middle Ages, you find a lot of red being used for decoration. Especially in China, the colour is very much used. It speaks of passion. Please, remember passion by itself is not an undesirable principle. It is the question of how you apply it and where you apply it. Those who carry enough passion are the only ones who can progress either way. People without passion cannot progress. If you don't have the urge to accomplish, you live vaguely. Discrimination and filtration are the two principles to be applied to passion. If you apply the discriminative will and filter the undesirable motive, then the passion will help you a long way to accomplish great heights in life.

For a disciple the colour is violet, and for the Master of wisdom the colour of Libra is blue. Depending upon the awareness these colours are used. The sound potency relating to Libra is V. That is why you invoke every morning and every evening twice the sound V. In CVV you have two times V. V is the sound relating to Varuna, and Varuna is the Lord of the west who resides in the Muladhara and pushes the energy upwards. The seed sound relating to the sound V is VAM. If you see the books on Hatha Yoga, you find the seed sound VAM only be utilised under the guidance of a Master. It stimulates the energy of Varuna, the presiding cosmic deity of Uranus. Uranus is the planetary principle that is causing fast and speedy changes in human consciousness for the better.

PARACELSUS HEALTH AND HEALING

THE REMEDY OF NEUTRALISING WRONG ATTITUDES

The physical body is visualized as a house with two communicative systems such as telephonic installations. One brings communication from outside into the house (body). The other is like a room to room telephone within the house (intercom). Mind is the telephone that brings information and through mind the information is passed onto the internal communication system.

What mind brings in is the input, which is transmitted inside through the intercom within the body. The information received is analysed by the mind according to its orientation. It can be neutral to the information. It can also be either attractive or repulsive to it. The mode of reception decides the chemistry of health. The positive reception promotes health. The negative reception promotes ill health. Discrimination to eliminate unhealthy thoughts emerging from the information gathered (from the surroundings) is therefore considered more as a healthy habit than a religious virtue. Entertaining them in the mind is likewise more a vice than a religious sin. Classification of this habit in terms of religion or moral is to be replaced by the science behind it. If this science is promoted man knows that it is unhealthy to indulge into extreme dislike, criticism, superiority complex etc.

The second step is to observe within the behavioural pattern for emergence of such negative emotions from within the house (body). Regardless the events outside man feels from within the above said negative emotions which should be known as deeper weeds in his own nature. Some are jealous for nothing. Some carry hatred. Some others carry critical attitude. These attitudes are true sources of sickness.

Thus the causes for ill health develop either from within or from outside as per one's reaction to a given situation. The outer causes subside faster. The inner causes do not. The two installations can thus bring in health or ill health as per the quality of thoughts produced.

The tendency to criticism, to violent dislikes and hatred, to feel superior or inferior produce acidity in majority of people. Antacids are no answer to recurring acidity. Many people today are prone to inferiority complex in rela-

tion to themselves, but to superiority complex in relation to others. All this brings in recurrently acidity.

Likewise the excessive desire to eat and drink brings in attacks of biliousness. Mostly people wake up with headache due to last night's dinner. Such people carry also yellowish face in the morning hours.

Likewise many of the common discomforts called sicknesses can be eliminated through neutralizing the existing wrong attitude in life towards people. Such simple remedies need to be communicated than to fill the stomachs of the people with tablets of medicine.

Thus runs an old theory on medicine.

GREAT INVOCATION

Let us form the Circle of Good Will.

OMNIA VINCIT AMOS

From the South through Love
which is pure.

From the West through Wisdom
which is true.

From the East through Will
which is noble.

From the North through Silence
which is golden.

May the Light make beautiful
our lives.

O Hierophant of our Rite
Let his love shine.

OMNIA VINCIT AMOS

Let us form the Circle of the World Servers

We bow down in homage
and adoration

To the Glorious and Mighty Hierarchy,
The Inner Government of The World,
and to its Exquisite Jewel,
The Star of the Sea -
The World Mother.

From the point of Light
within the Mind of God
let Light stream forth
into the minds of men.

Let light descend on Earth.

From the point of Love
within the Heart of God
let love stream forth
into the hearts of men.

May Christ return to Earth.

From the centre where the
Will of God is known

let purpose guide the little wills of men,
the purpose, which the Masters
know and serve.

From the centre which we call
The race of men

Let the Plan of Love and Light
work out

And may it seal the door
where evil dwells.

From the Avatar of Synthesis
Who is to come

let His energy pour down
in all kingdoms.

May He lift up the Earth to the
Kings of Beauty.

The Sons of Men are one
and I am one with them.

I seek to love, not hate.

I seek to serve and not exact
due service.

I seek to heal, not hurt.

Let pain bring due reward
of light and love.

Let the soul control the outer form
and life and all events,
and bring to light the love
which underlies the happenings
of the time.

Let vision come and insight.

Let the future stand revealed.

Let inner union demonstrate
and outer cleavages be gone.

Let love prevail.

Let all men love.

Master D.K.

The song of the Soul is OM.
The creator sings the song of the OM
and the result is creation.
The Soul that sings the song of OM
is a creator in creation.

Sing OM
and be a Creator,
a Master.
