INVOCATION

May the Light in me be the light before me
May I learn to see it in all.

May the sound I utter reveal the light in me
May I listen to it while others speak.

May the silence in and around me present itself,
The silence which we break every moment,
May it fill the darkness of noise we do
And convert it into the Light of our background.

Let virtue be the strength of my intelligence,
Let realisation be my attainment,
Let my purpose shape into the purpose of our earth,
Let my plan be an epitome of the Divine Plan.

May we speak the silence without breaking it.
May we live in the awareness of the background.
May we transact light in terms of joy.
May we be worthy to find place in the Eternal Kingdom OM.

Master E.K.

PRAYER FOR THE YEAR

All names together utter the name of God.

A prophecy thinks from darkness to light.

Prophecy is fulfilled.

MESSAGE OF THE MONTH OF SCORPIO

The month of Scorpio is known in the Vedic system as the month of Karthika. Karthika is the name of the Cosmic Kumara whose birth reveals many secrets relating to the six centres of the body, the six envelopes of the body namely five envelopes of elements and one envelope of mind. These are the six layers around the soul and the Kumara resides therein.

A Kumara is a Son of God and knows himself to be a Son of God. But when the Son of God is attracted to the magic of the five elements he forgets his real identity and gains a false identity. This false identity makes the Son of God a son of man. This false identity eventually dies because it is born. That which is born is bound to die. That which has a beginning has an ending. The soul is eternal and is unborn and hence it does not die.

Death is therefore, is not considered and is not real. Death is to the false identity. Death is not to the soul. The false identity is a distortion that suffers death. The eighth cosmic house in the zodiac carries the secret of death. The eighth house in the horoscope is death to the mortal identities but second birth to the disciples into real identity. The secrets of death are hidden in Scorpio and are revealed to those who turn inwards and tune into the inner being.

The Kumara is called Shanmukha meaning the six-faced one. The six faces relate to the six layers of his body and he is the seventh one. He is called Guha because he lives in the cave of Shushumna. Guha means the one that resides in the cave. He is also called Subramanya meaning that he is Brahman in incarnation. He is called Sastha because he has the triple power of Light, Love and Will. He is further called Vishaka meaning the one that branched off. He is a branch of the tree of Brahman. He is called Karthikeya because he is mothered by the six stars of Pleiades (Krithikas). He is also called the Devasenani meaning the General of the Divine army that commands the Divine light.

According to Vedic understanding the 6th ascending moon phase in Scorpio is related to the Kumara and he is worshiped to lead the worshiper into the light of Shushumna.

MESSAGE OF THE TEACHER

A PRAYER

You are the Lord of the five elements. You are the Lord of the five sensations. You are the Lord of the five senses. You are the Lord of the five limbs of the body. You are the Lord of mind, of behaviour and the discriminative will. You are the Lord of the I AM localised. You are the Lord of five pulsations of life. You are the Lord of the root matter and of *Mahat*. You are the Lord of the three qualities of Nature. I bow down to you in all that is visible and invisible. I look to you but not to the limitations in me and around me. Help me to see no other than you in all that is in creation and beyond creation.

GÎTÂ-UPANISHAD
- LORD SRI KRISHNA -
THE DISCRIMINATIVE WILL

If you have the ability to discriminate, you can live without being conditioned in creation. Discriminative-will helps you to do what is to be done. It also helps you to restrain you from over doing and under doing. It helps you to be sequent but not consequent. It further helps you to remain unattached to the fruits of your labour. Finally it helps you to offer such fruits for the benefit of all.

But not all carry such a discriminative-will. Many times even the seers fall into illusion and loose the discriminative-will. In such a situation to regain such will pray unto Me, Study my scriptures and regain the lost will. It is for this reason even the seers of highest order pray and surrender to Me. In the surrendered ones My Will functions as theirs and hence they do not fall as long as they exist in such surrender.

Oh Arjuna! You can choose either of the two ways if you can use your discriminative-will and conduct without getting conditioned. You may do so. Or you may orient to Me and listen to Me and do what I say. The choice is yours.

MESSAGE OF MASTER CVV
YOGA SCHOOL FRIEND

MTA tells me that in every human being there is jealousy. The difference is in the degree. But it exists in the incarnated beings. When you do My yoga this jealousy hidden in your nature comes to the surface and as it surfaces you need to eliminate it with devotion. If you let jealousy, it pollutes the heart and obstructs the real Divine experience. Eliminate this energy from you by seeking support from Me. This is your fundamental work in My yoga.

MTA further tells Me that the mediums who work with My yoga and so far as they do not eliminate their malice they will be attacking each other with their malice leading to mutual discord and hatred. They land in disputes and fight. They would even resort to the courts of law. It's a pity that in the name of yoga you entertain conflict, dispute and fight. Remember that you all intended to be yoga friends but not yoga fighters. The school I hold is yoga school friends. Be as friendly with co-disciple as a school friend is.

LORD MAITREYA GUESS AND ITS APPLICATION

When a lady carries a water pot on her shoulder and moves on the way, do you know whose thirst that water quenches? When a weaver weaves, do you know whom that cloth protects? When you look at a closed door, do you know who comes from the other side opening the door? When someone travels with you in the plane, train or bus, do you know the purpose of his travel? When the thunders strikes, can you imagine whom would it strike? When people behave differently, do you know why they behave so differently? The answer from you is obvious. You do not know.

Even while you don't know you make your own guess. With that guess as basis you speak or act. Your guess is entirely yours. It slowly crystallises due to your opinion. And your opinion becomes your belief. Many of your beliefs are thus blind beliefs based on opinions, which are founded on guesswork. When the foundation itself is false the whole edifice that you build cannot be true. It is equally false and hence he is bound to fall.

All this is your mind's cinema, imagery based upon its quality.

But the guesswork you do also has its divine purpose. Instead of utilising the ability to guess for mundane things why can't you guess of the Divine, of the planetary activity, of the life activity in you and around you, of the play of sound and the colour in creation and of the silent work of OM. Such guess would lead you to imagination and such imagination would lead you to visualisation and visualisation vertically lifts you up into kingdom of beauty. Think it over.

MASTER MORYA - MARUVU MAHARSHI - LOVE INCLUDES PUNISHMENT

People define *ahimsa* in different ways. Harmlessness does not mean enduring harm. Only selfless people know what harmlessness is. Selflessness is the basic eligibility to experience harmlessness. Lord Krishna demonstrated harmlessness even while He was at war. No one could understand the stand of Lord Krishna and His demonstration of harmlessness. Even the Gnostics could not decipher the secret of the Lord's act of harmlessness.

It takes ages for man to understand that love includes punishments. Punishing with love can be done only by the selfless ones. Its out of abundant love such punishment is given to the personalities, which has a hidden program of love for the soul. When the soul is to be saved sometimes the personality may have to be punished. When a soul is suffering from an incorrigible personality many times it is a great relief to the soul to relieve it from such a personality and offer a fresh opportunity. The parents' disciplining the children and giving some punishments is only due to love. The teacher disciplining the students and occasionally punishing them, when they are at fault, is also an act of love. Love and harmlessness do not mean entertaining indiscipline. Verily I say unto you all love and harmlessness include punishment.

**MASTER KOOT HOOMI
- DEVAPI MAHARSHI -
THE BLISS**

Bliss is the ultimate of the experiences. In the blissful state the individual is absorbed into apparent non-existence. Such bliss fulfils the soul and bestows contentment. Bliss is indefinable and is even unimaginable. How it approaches you and lifts you unto itself is unknown. Its arrival is unexpected. Its approach is ever new. It leaves one in an ecstatic state and the one who experiences exclaims in ecstasy. He craves for such ecstasy while he knows not the way to it. Know that the bliss knows the way to you but not you the way to it. Lord Krishna bestowed such bliss through his flute music to all those in Brindavan. It includes not only humans but also animals, plants, planet and the five elements surrounding it. Bliss is the other name of the presence of the Lord.

**MESSAGE OF MASTER E.K.
GOOD DISCIPLE**

Body is the means for self-realisation. Without body nothing can be accomplished in the world and even beyond the world. Body is the offspring of the Soul and hence is its disciple. Unless the disciple cooperates the Master cannot function. The body obedient to the Soul's command is the best disciple.

VIDURA
WISDOM TEACHINGS

The fuel for the fire,
the alcohol for the drunkard,
and the sleep for the lazy,
are insatiable.

SHIRDI SAI SAYINGS

MY HOPE

My Father is benevolent. He keeps giving me abundantly. I wish to give what I receive. But there is none who wishes to receive what I intend giving. They have other wishes. They come to receive what they wish but not to receive what I wish to give. I keep giving what is asked by them with a fond hope that one day at least one of them seek what I am given by My Father.

SRI RAMAKRISHNA DEATH AND REINCARNATION

- Man suffers so much simply for want of devotion to God. One should therefore adopt such means as would help the thought of God to arise in the mind at the last moment of one's life. The means is practice of devotion to God. If this is done during one's life-time, the thought of God is sure to occur to one's mind even at the last hour.
- A man's rebirth is determined by what he has been thinking about just before death. Devotional practices are therefore very necessary. If, by constant practice, one's mind is freed from all worldly ideas, then the thought of God, which fills the mind in their place, will not leave it even at the time of death.
- When an unbaked pot is broken, the potter can use the mud to make a new one; but when a baked one is broken, he cannot do the same any longer. So when a person dies in a state of ignorance, he is born again; but when he becomes well baked in the fire of true knowledge and dies a perfect man, he is not born again.
- Even at the time of death the 'bound souls' speak of worldly matters only. There is no use in visiting places of pilgrimage, or bathing in the holy Ganges, or counting beads; If there are worldly attachments in the heart, they are sure to manifest themselves at the dying moment. Hence 'bound souls' indulge in random talks even at that time. A parrot may ordinarily sing the holy name of Radha-Krishna, but when it is attacked by a cat, it cries out 'Kang', 'Kang' - its natural cry.

Short Biography

Master Kambhampati Parvathi Kumar was born on 7th of November 1945 at Vijayawada, as the son of Sri K V. Sastry and Smt. K. Ramalakshmi. He grew up in a deeply spiritual family. His father was a convinced follower of Lord Sri Rama. He lived a life total surrender to God with utmost discipline and a strict rhythm. Through his own life style he imparted that kind of discipline to his seven children. He was a good father and teacher to them. However, at the age of 51, he left the physical body. At that time, Sri Parvathi Kumar was 21 years (plus) of age. His mother, a warm-hearted and joyful woman, always co-operated with her husband and helped him to achieve his noble aims. In this blessed family, Sri Parvathi Kumar grew up. He was a very gentle, amiable child and was the delight for the people around him. He continues to be so at a global scale now.

At school and at the college, he was always the best, and his academic career was one of brilliance. He stood University first in his B. Com (Hons) Examination (1965) and was awarded a Gold Medal. He was once again a University Topper in the M. Com., Degree Examination (1966). In the same examination he holds the unparalleled distinction of having scored the highest

percentage of marks in the University, a record, which is unbroken till date.

He has the rarest honour of being conferred 'Doctor of Letters' by the Andhra University of Visakhapatnam on 27th August, 1997 in recognition of his invaluable services to human society.

Parvathi Kumar was also a good sportsman. His favourite sports were tennis, table tennis, billiards, cricket and badminton, where he won many awards.

In October 1970, C. P. Rao and K. Parvathi Kumar established the firm "Rao & Kumar". Chartered Accountants. The firm successfully grew step-by-step and today is one of the most reputed firms of Chartered Accountants in Andhra Pradesh, India that is ably handling all matters of Accounts, Audits, Finances and taxes.

Sri K. Parvathi Kumar received first impulse from the Soul in the 10th year and on his own elision started worshiping Lord Shiva. In his 18th year an Avadhuta visited the family and initiated all the family members into worship of Hanuman (a manifest form Lord Shiva as Rudra). In his 24th year another initiate in the line of Dattatreya visited the family and initiated Sri Parvathi Kumar, his mother and his only sister Parvathi into the path of yoga. In the same year he came into contact for the first time through his younger brother with the Mantra Namaskarams Master C.V.V. and with Master E.K. Thereafter a very deep relationship and intense cooperation between Master E. K and Sri K. Parvathi Kumar developed. Master E. K was a channel through which the Divine Plan expressed itself. There was such huge work coming up that it became necessary to organize all these varieties of tasks. For that reason, Master E. K. gave the permission to set up an organization, which he named "The World Teacher Trust". The Trust was founded on a Saturday, 18th November 1971 in Scorpio, during the Jupiter hours. Sri. K. Parvathi Kumar was the competent person to lay the statutes for its foundation and to manage all legal aspects in connection with the organisation. In the following years, Master E.K shouldered more and more responsibilities to Sri K Parvathi Kumar. Since Master EK.'s 50th anniversary, the 11th August 1976, Master E. K. always appeared together with Sri Parvathi Kumar to public. On that auspicious day, Master E. K. informed the public that Sri Parvathi Kumar will be the one to continue the work of the Planetary Hierarchy and for that purpose he will have to go on many global journeys. On 21st April 1977, Master E.K moved to Radhamadhavam, into the house of Sri K Parvathi Kumar, in order to continue his activities with greater vigour for the benefit of humanity.

In July 1981, Master E.K. invited Sri Parvathi Kumar to carry out with him the task concerning the spiritual fusion of East and West. Sri Parvathi Kumar accepted to accompany the Master on his travels to the West and to share the work with him.

In the years 1981, 1982 and 1983, they travelled together on invitation to Belgium, France, Germany, Switzerland, Denmark, and Italy in order to teach the Doctrines of Wisdom to the Western Brotherhood and to guide the searching souls onto the Path of light.

In March 1984, the Plan took to a sudden turn. Master E.K unexpectedly left his physical sheath and left a great number of unfinished projects behind. Sri K Parvathi Kumar shouldered many tasks and successfully completed them together with the Indian brotherhood.

Sri K. Parvathi Kumar also agreed in taking over and continuing the great mission of bridging East and West. He therefore visited from 18th to 29 September, 1984 the WTT Geneva where he gave lectures about the Yoga of Patanjali, Sri Suktam and the significance of full-moon and new moon.

In the years 1985/86 there were profound spiritual adjustments in the life of Sri K. Parvathi Kumar. Therefore he was not able to visit the West in these two years. It was only in 1987 that he received the inner command to visit Europe again and consequently followed an invitation from the Theosophical Society and the WTT Hamburg, Germany, where he spoke about the Music of the Soul, Gayathri, the symbolism in daily life and healing.

Since 1987, Sri Kumar Garu regularly travels to Europe and since 1992 to South and North America. He teaches the ancient doctrines of wisdom, gives instructions for daily life, introduces individual and group meditations, forms healing groups and explains the science of Yoga. He regularly conducts fire rituals on Thursday, Sundays and on full moons. Besides, he celebrates the Vedic marriage ritual in a simplified version to the inclined Western couples.

He is an excellent interpreter of symbolism relating to various belief systems of the past, like Mayan, Mexican, Inca systems, Celtic and Jewish systems. He carries with him the key of astrology, symbology, etymology, and numerology. He also carries the keys of sound and colour. When he teaches the scriptural knowledge these keys unfold the consciousness in the listeners and makes them joyful. When he teaches there is a magnetic smiling aura that charms people, and the listeners listen with rapt attention. People who are habituated to listening to him are addicted to the charisma of his teaching. **He is essentially a teacher but not a lecturer.**

His work and responsibilities grew from year to year. The Divine Plan is expressed through him in a variety of fruitful works and in a fiery life, of which service and sacrifice are the basis. Everywhere on the planet, he promotes group work and service for the Plan in togetherness. For that purpose he visits groups all over the world, supports, guides and connects them, so that a worldwide networking has been developed which finds its common basis in the World Teacher. He says the ones who have trust in the World Teacher are the members on the World Teacher Trust.

In May 2005, the Master celebrated his 40th international tour, to Greece. During all these years he visited more than 150 places and groups on three continents. His seminars are recorded on more than 1500 cassettes. He wrote more than 50 books, composed innumerable writings and articles and publishes three monthly magazines: Navani, Vaisakh Newsletter and Paracelsus - Health & Healing. His wife, Smt. Krishna Kumari Garu, often accompanied him in his tours and travels. She is a great support in all that he does for the groups and is the power behind. She is very protective of Sri Kumar and takes meticulous care of him. She is a lady gifted with intuition and can feel people almost unmistakably. Some times she even alerts him when he is too amiable. It is not out of place to mention that in relation to his works in the West, Tiziana and Jesus were his intimate companions and Sri Kumar says that they are part of his family.

His great mission is the fusion of East and West of which Madame Blavatsky laid the foundation stone with her two great works *Isis Unveiled* and *Secret Doctrine* at the end of last century. With much positive dynamism she shows the present religious beliefs and brings them in relation to the ancient and true doctrines of wisdom. She very clearly speaks about the wrong human comprehension of matter and spirit and at the same time reveals the true spiritual values and principles. Later further great initiates such as Sri Rama Paramahansa, Master C. V. V., Alice A. Bailey, Sri Aurobindo, Sri Paramahansa Yogananda, Master E. K came to continue the great mission of Lord Maitreya. They have spread the real spiritual values, wisdom and the service towards the fellow beings all over the globe. Today Master K. Parvathi Kumar (KPK) is one of the great initiates who committed himself to the Divine Plan and works for it in silence and humility.

Master KPK forms the bridge between East and West by linking the Eastern and Western World Scriptures - *Secret Doctrine*, the doctrines by Alice A. Bailey, the *Old and New Testament*, *Mahabharata*, *Ramayana*, *Srimad Bhagavatam* and many more and teaching them in a comprehensive way. Master EK predicted that after him somebody will come who explains his teachings in simple words. Master KPK's classes and teachings are unique and new on the planet. They are a source of inspiration. His main subjects are; the ancient and eternal doctrines of wisdom, meditation, Yoga, astrology, the science of healing, rituals, the profound meaning of symbolism, colour, sound and time cycles.

Master KPK teaches the path of Raja Yoga, the Royal Path. This path is also called the "golden middle path", the balance between the spiritual and the material word. In many seminars, the Master emphasized that both, spirit and matter are equally important. Man must learn to handle both in a suitably way, none may gain the upper hand or be rejected. Therefore the disciple has to do his daily duties by retaining his spiritual attitude in all his activities.

Inner and outer tranquillity, composed attitude, compassion, kindness, and the constant orientation to the One are the desirable goals of this Yoga. In order to reach this goal, the Master imparts constructive meditation techniques, gives recommendations for study and stresses the importance of service to the fellow beings.

Master KPK emphasizes the value of marital life, the family and the righteous education of children, because the family is the basis for a healthy society. The Master demonstrated through his own life and teachings that it is possible to unite spirituality and family life. This is one of his great characteristic features, through which he distinguishes himself from other initiates and masters. He demonstrates humanity a new form of domestic, economic, social and spiritual life, whereby he realizes the Yoga of Synthesis in all areas of life.

He himself is an outstanding example for true service, sacrifice, love and goodwill in action. A great number of social projects, free schools in slum areas, distribution of food and free homoeopathic treatment run under his auspices. Untiringly, in silence and secrecy, he works for humanity, treats the sick, helps the poor and needy and consults families. Through him the energies of love, wisdom and goodwill are constantly flowing. In 1985, he founded the Circle of Goodwill, through which the Divine Plan can be expressed by way of social and cultural activities in a well-organised manner. The Circle of Goodwill runs eight schools where children receive free education, hygiene, clothing and food. There are more than 100 homeo dispensaries run by the World Teacher Trust and Circle of Goodwill to give free treatment to people. Besides, it encourages music schools and itself operates a music circle. Furthermore, the Circle responds to natural calamities such as cyclones and wars and provides substantial relief measure. It also gives donations for the promotion of environmental development projects. Service to the fellow beings and the support of the poor and needy is the outstanding matter of concern to the Master. Already as a pupil he committed himself with love and enthusiasm to help the poor and weak people.

On 1st January 1997, he writes: "A world server is one who visualises the One Light in all forms and sincerely serves the Light in every form. The World Teacher Trust seeks to serve the light in form. Its motto is, 'We seek to serve.'

Master KPK has completely consecrated his life to the service of humanity. He heals on all planes of existence, teaches the ancient and eternal wisdom and guides the seeker onto the path of truth. His goal and purpose is to lead humanity to the eternal light.

It is a great gift and a rare occasion to be guided by such a great soul, to be permitted to cooperate with such a Master and to follow him upon the path of service.

We thank you Master with all our heart on your completion of 60 years of life and we wish you many more years of healthy life to enable us to grow into your light through your presence. You are established in us with your ever-smiling countenance. Let it continue to be so.

Namaskarams

CHILDREN'S SECTION

THE RIGHT USE OF FOOD

Food in the Aquarian Age

In the Aquarian Age, man masters the element air and thereby moves in air. He conducts not only airy travels upon Earth, but also inter-planetary travels. Man also gains mastery over matter through expansion of consciousness.

Matter gives way to consciousness. There will be greater understanding of the unity of life. The barriers of names, forms, races, nations and religious cults fall down to realise the One Consciousness in all and as all.

Separatism gives way to collectivity. Individual living gets substituted by group living. Group needs, group work, group consciousness are the key words of the age. Individualistic, separative and exclusive outlook should either break or bend.

The matter because of more interaction with air becomes lighter. Lighter minerals and metal alloys are invented. The articles of daily use also tend to become lighter and lighter. Plastic and polythene replace heavier metals. Stainless steel and aluminium replace bronze and brass metals.

The human body also tends to become lighter in terms of weight. The food habits undergo a sea-change. In due course of time, man learns to live more on air and water than on foods that are heavy. Techniques to satiate hunger without material foods are revealed. Man gradually develops a stable etheric body and moves in air.

According to the need he gathers a material body around him.

To sum up, the superconscious mind descends more and more into the material and lifts up the latter into the Kingdom of God.

BOOK REVIEW

THE MANDRA SCRIPTURE

Mandira means the music of the cosmic consciousness. It plays as the undercurrent of the spheres and the lives in them. The *Bhagavad Gîtâ* is the Word of the Lord in human language. The *Mandira Scripture* is an Aquarian rendering of the Bhagavad Geeta, the celestial song of the Lord. Master E.K., to whom the Grand Wisdom of the Bhagavad Geeta was revealed, directly dictated afresh the celestial song in a very simple and lucid manner. This is not a commentary on the Bhagavad Geeta. It is the Bhagavad Geeta rewritten, directly communicating the import for the benefit of the seekers of Truth.

WISDOM BUDS

Seven talks given at different occasions are brought out as "Wisdom Buds". They unfold within the being as brilliant lotuses when contemplated upon: "The White Island" deals with the plane of Light as the field of the Soul. "The New Age Teacher" demonstrates the teachings in his way of life. "The Return of Christ" shows that the Christ already started returning in the Aquarian way. "The Principle Teachings of Krishna" enumerated in the talk are valid for all times to come. "The Path of Gradual Unfoldment" is observing and experiencing the One Consciousness in all. "Upanayanam and Marriage" are two most sacred sacraments of the Vedic tradition conducted to elevate the soul.

India

December Call 2004, Bangalore.

After the seminar a group of 24 people (16 persons from Bangalore, Mysore and 8 persons from Europe) went into the Blue Mountains. After a bus ride of four hours we reached Mysore in the evening and spent the night there. The next morning we drove to the Mother-temple and did the 6 o'clock meditation there. It is one of the eight most important Mother-temples in India. After breakfast we continued to the Ramakrishna school, where we were received by the swami and the prefect and we were introduced to the organisation and direction of the school. December 31st in the evening we reached our goal, the Nilagiris. With the blessing of the Master we could start the new year with impressive and deep experiences. The ascent to the Durga hill with a view to the "Agastya Mountain" will always remain in our memory. It was a journey, which will remain unforgettable from the spiritual aspect as well as from the aspect of brotherhood.

Between 42 and 44 members of the WTT-brotherhood from Spain, Germany, Switzerland and the USA gathered for the group living in Visakhapatnam. After the first acclimatisation the group went to the Guru Pooja premises in Simhachalam on January 10. At first we visited the temple beautifully located on a mountain, where an image of Narasimha, the Man-Lion symbol, is worshipped in its holy of holiest and where there is an atmosphere vibrating with energy. On the Guru Pooja premises the Indian brotherhood was intensely engaged with the preparations for the three day celebrations. At our surprise the ceremonies already started that evening with a meditation, a talk by our Master and a dance presentation of students of the Balabhanu School.

EXTRACTS FROM THE TEACHINGS THE HIGHER ASPECT OF LIBRA, Part XIV

Dr. Sri K. Parvathi Kumar
Peñíscola Group Living, Spain, June 2003

Libra in its initial stages, when affected by Mars, has the passion for sex, money and comfort. It is the affliction of Venus by Mars. There is much misunderstanding of Venus. It is said that Venus is the cause for sexual fall. It is not Venus. It is Mars. That is why in the first and the final stage the ruler of Libra is Venus. Venus represents beauty in form and beauty out of form. Beauty beyond form is enjoyed by those who relate to the higher realms of the creation. Beauty in form is also very attractive and puts you in a state of re-arrangement and re-orientation. Ancient wisdom speaks of Venus in very noble terms. Venus is the principle that guides this earth principle. The etheric body represented by Venus guides the body of flesh and blood.

Once Mars is worked out, it should give way to Saturn. In Libra Saturn stands for the planet that gives appropriate understanding of beauty. That is why Saturn is said to be the ruler for the disciple in Libra. When beauty in form is well understood through the discipline of Saturn, then the disciple raises to the Master consciousness, where the beauty beyond form is realised. More details about this are very well given in the book "Venus - the Path to Immortality". Actually for the humanity the challenge is to be able to rightly orient to beauty in form.

Now it is Uranus that is functioning at all the three levels, because Uranus is the Lord of Aquarius and is connected through trine to Libra. Uranus is also functioning through Gemini now and through trine aspect pulls up the energy from Libra to the throat centre. The work of Uranus is two-fold as far as Libra is concerned. It is causing its influence through Aquarius and is also causing its influence through Gemini. Either way Libra is put to quicker evolution.

Uranus is working for better comprehension of the law. Uranus is insisting the law to carry the loving understanding of Venus. If you have loving understanding, while you function as the law administrator, you try to understand the work of nature through the beings and the clue to some unsocial activity will be seen by you. It is very easy to say terrorism is bad. But why human beings are submitting themselves to such terrible acts to the extent of sacrificing their life? What is the cause behind? What is it that this activity of terrorism has in the background? Many times the causes are not seen and not well understood for lack of adequate love.

I narrated to you the story of the servant maid as also the story of the prostitute whom Jesus saved. The social understanding does not carry much depth. They only decide on the basis of superficial acts. But there is a part of humanity which is expressing its frustration. We should have enough love to understand why it is so. Many intellectuals from all over the globe were invited to discuss about this subject on television, and many of them said: "Go into the very roots of this emergence of terrorism. When you are preoccupied with the energy of authority and power, you do not carry adequate understanding, because love is missing."

The Hierarchy is deeply working with Libra vis-à-vis Uranus to ensure that people look to the very clues of behaviour patterns of certain communities. When once these clues are understood and appreciated, the first ray energy of power will receive the impact of the second ray. This work is also carried out in the subtle plane by the Hierarchy and their disciples with the help of the energies of Uranus, and the means are to supply the energy of Venus to the law-making and law-administering agencies. Mostly this functioning happens through the opposition in the governments. Likewise, the sex aspect of Libra is also worked out by Uranus to inform the right purpose of this natural instinct in the human body. The attraction for sex is an expression of the soul for communion, that the soul feels separated. From what it is separated, it does not carry the clarity.

As I said, the woman is taken out of the man, and the man is taken out of the woman. Woman and man in so far as they are well balanced in the human constitution, there is no urge for seeking outside. This urge to commune in the lower levels is taking place in terms of sex activity, and the beings feel insecure, when they are not in communion. In certain communities, when there is an act of terror happening, the sex activity is also raising along with it. This is because of insecurity of being separated. The communion is the urge of the soul, but the means to commune are not known. That is why the vertical communion is what is being suggested in a scientific manner, where the personality is in communion with the soul and does not feel deserted. The sense of security is great with the personality. The spiritual dimension is that the personality is always looking for security until it aligns with the soul. The fear of security is always there, and the causes are seen outside.

In the effort for self-defence, one thinks of offence. Offence is the best principle of self-defence. We find this with individuals who always defend themselves, whether they are right or wrong. They are not willing to see into themselves. The cause is in them, but not outside, and they have fear. That is why there is the whole game of putting the blame always on the other! The game of offensiveness arises out of lack of the sense of security. You feel at comfort, when you put the blame on others. Only those who are brave will defend themselves. The evolution of a man or a community or a nation de-

pend upon its lack of offensivity. Lack of offensivity comes to you only, when you are out of fear. As much as you are in fear, so much you wish to secure. In your excessive sense of security you develop suspicion about others that they may cause some offence to you. Out of your own suspicion you will attack the other even before the other thinks of attacking you. All aggression in human history is only due to fear. As long as the fear hovers around the minds of the human beings, it separates him from the rest of the life, and the frustration also leads to excessive sex activity. This is the understanding of the Hierarchy of today's cause of aggression and excessive sex activity.

Uranus being an interpenetrating energy will very quickly bring out the motive for people who cause such an offence. Transparency is the main principle of Uranus. It exposes all dark areas of the human community. Enough mechanism is developed on the planet today, that nothing can remain hidden. All manipulative actions will be quickly revealed, exposed, and thereby redressed. This is how the work is happening due to the effectiveness of Uranus. Uranus is also working with the money. People can no more accumulate capital. It is self-destructive. Already the fear of capital accumulation is making certain nations to think, to think and think over and again. The only solution, as it is seen by the Hierarchy, is that they should learn to give and to distribute for the benefit of all, so that their benefit is also secured. That is where Uranus in communion with Saturnian energy is uplifting the 7th ray activity resulting in a kind of new age masonry.

One of the essential principle of masonry was intelligent utilisation of resources of those who have for the benefit of those who do not have. Crystallizations happen, when there is accumulation of money. These crystallizations have reached the psychological planes, and here again the interpenetrating energies of Uranus are breaking through resulting in a compulsive situation to share and to distribute. Very soon you will find the compulsive distribution of the capital all over the planet. That is how the work relating to law, sex and money are expected to go through many changes. Then slowly individuals and communities will become self-legislators, and no one will decide for the other. They will start deciding for themselves. There is no such thing as polarisation as it is today. This polarisation towards communism, capitalism or socialism, it ceases to be. What is ideal for the nation is decided by that nation. It is not that one nation decides for all. *to be continued*

PARACELUS HEALTH AND HEALING

THREE MAJOR LAWS OF HEALTH

Doctors and healers would do well to know that 90 % of diseases are due to wrong use of mental energy and misapplied desires. The bulk of humanity does not yet know how to use the mental and the desire energies. The human race is still very atlantean, desire-oriented. To fulfil their desires they carry on manipulation in their thinking process. The manipulative are manipulated in due course of time. Such is the law. As long as self-propitiation exists, diseases perpetuate. Humanity at large is in conflict at the mental and emotional plane due to such continuous manipulations. The inner conflict produces incessantly diseases. However much outer cure is effected, disease repeatedly manifests as long as the inner conflict remains.

An education for a healthy living should pitch upon such new areas as to “how to think and how to desire”. The right relationship has to become once again part of human health and healing discipline. Imparting the law of right relationship therefore becomes all the more important.

There are three major laws of health, which help the present medical science to serve better the cause of health. These are indicated in the ancient scriptures. They are:

- The law of controlling and directing the will.
- The law of rhythm, which needs to be gained in terms of activity, food, rest, besides breathing and thinking. This would enable the human beings to be in harmony with Nature and in equanimity with all beings. This eventually paves the way for peaceful existence.
- The law of fair distribution of material resources of the planet between groups of humanity without controlling them for the benefit of a few. Covetedness, avarice and the related fears are dissolved when fair distribution of resources is resorted to.

The above laws should no more be seen as theosophy, religion or belief in God. The aforesaid laws should be seen as part of the science of life and

health. The Yoga science recognizes this fact. The patients need to be given a way of life more importantly than diagnosing diseases and giving medicines all the time. To sum up: doctors need to be teachers also. In ancient times healers were teachers and teachers were healers too!

GREAT INVOCATION

Let us form the Circle of Good Will.

OMNIA VINCIT AMOS

From the South through Love
which is pure.

From the West through Wisdom
which is true.

From the East through Will
which is noble.

From the North through Silence
which is golden.

May the Light make beautiful
our lives.

O Hierophant of our Rite
Let his love shine.

OMNIA VINCIT AMOS

Let us form the Circle of the World Servers

We bow down in homage
and adoration

To the Glorious and Mighty Hierarchy,
The Inner Government of The World,
and to its Exquisite Jewel,
The Star of the Sea -
The World Mother.

From the point of Light
within the Mind of God
let Light stream forth
into the minds of men.

Let light descend on Earth.

From the point of Love
within the Heart of God
let love stream forth
into the hearts of men.

May Christ return to Earth.

From the centre where the
Will of God is known

let purpose guide the little wills of men,
the purpose, which the Masters
know and serve.

From the centre which we call
The race of men

Let the Plan of Love and Light
work out

And may it seal the door
where evil dwells.

From the Avatar of Synthesis
Who is to come

let His energy pour down
in all kingdoms.

May He lift up the Earth to the
Kings of Beauty.

The Sons of Men are one
and I am one with them.

I seek to love, not hate.

I seek to serve and not exact
due service.

I seek to heal, not hurt.

Let pain bring due reward
of light and love.

Let the soul control the outer form
and life and all events,
and bring to light the love
which underlies the happenings
of the time.

Let vision come and insight.

Let the future stand revealed.

Let inner union demonstrate
and outer cleavages be gone.

Let love prevail.

Let all men love.

Master D.K.

In silence one can listen to the sky.
The voice of the sky is subtler
than the voice of water,
of the fire and of the air.
It is subtle as intimate.
Learn to listen
to this most intimate sound
in silence.
It is OM.
It is you.
