

To Master K. Parvathi Kumar's 60th Anniversary

Happy Birthday!

The members of the World Teacher Trust - Europe heartily congratulate you on your 60th anniversary. Master, we thank you for your untiring work, your teachings, your patience and all your help. You are a great Teacher and Master to us. You are a shining example to us; light that shows us the way. May we follow your footsteps with love and in gratitude.

Short Biography

Master Kambhampati Parvathi Kumar was born on 7th of November 1945 at Vijayawada, as the son of Sri K V. Sastry and Smt. K. Ramalakshmi. He grew up in a deeply spiritual family. His father was a convinced follower of Lord Sri Rama. He lived a life total surrender to God with utmost discipline and a strict rhythm. Through his own life style he imparted that kind of discipline to his seven children. He was a good father and teacher to them. However, at the age of 51, he left the physical body. At that time, Sri Parvathi Kumar was 21 years (plus) of age. His mother, a warm-hearted and joyful woman, always co-operated with her husband and helped him to achieve his noble aims. In this blessed family, Sri Parvathi Kumar grew up. He was a very gentle, amiable child and was the delight for the people around him. He continues to be so at a global scale now.

At school and at the college, he was always the best, and his academic career was one of brilliance. He stood University first in his B. Com (Hons) Examination (1965) and was awarded a Gold Medal. He was once again a University Topper in the M. Com., Degree Examination (1966). In the same examination he holds the unparalleled distinction of having scored the highest percentage of marks in the University, a record, which is unbroken till date.

He has the rarest honour of being conferred 'Doctor of Letters' by the Andhra University of Visakhapatnam on 27th August, 1997 in recognition of his invaluable services to human society.

Parvathi Kumar was also a good sportsman. His favourite sports were tennis, table tennis, billiards, cricket and badminton, where he won many awards.

In October 1970, C. P. Rao and K. Parvathi Kumar established the firm "Rao & Kumar". Chartered Accountants. The firm successfully grew step-by-step and today is one of the most reputed firms of Chartered Accountants in Andhra Pradesh, India that is ably handling all matters of Accounts, Audits, Finances and taxes.

Sri K. Parvathi Kumar received first impulse from the Soul in the 10th year and on his own volition started worshipping Lord Shiva. In his 18th year an Avadhuta visited the family and initiated all the family members into worship of Hanuman (a manifest form of Lord Shiva as Rudra). In his 24th year another initiate in the line of Dattatreya visited the family and initiated Sri Parvathi Kumar, his mother and his only sister Parvathi into the path of yoga. In the same year he came into contact for the first time through his younger brother with the Mantra Namaskarams Master C.V.V. and with Master E.K. Thereafter a very deep relationship and intense cooperation between Master E. K and Sri K. Parvathi Kumar developed. Master E. K was a channel through which the Divine Plan expressed itself. There was such huge work coming up that it became necessary to

organize all these varieties of tasks. For that reason, Master E. K. gave the permission to set up an organization, which he named "The World Teacher Trust". The Trust was founded on a Saturday, 18th November 1971 in Scorpio, during the Jupiter hours. Sri. K. Parvathi Kumar was the competent person to lay the statutes for its foundation and to manage all legal aspects in connection with the organisation. In the following years, Master E.K shouldered more and more responsibilities to Sri K Parvathi Kumar. Since Master EK.'s 50th anniversary, the 11th August 1976, Master E. K. always appeared together with Sri Parvathi Kumar to public. On that auspicious day, Master E. K. informed the public that Sri Parvathi Kumar will be the one to continue the work of the Planetary Hierarchy and for that purpose he will have to go on many global journeys. On 21st April 1977, Master E.K moved to Radhamadhavam, into the house of Sri K Parvathi Kumar, in order to continue his activities with greater vigour for the benefit of humanity.

In July 1981, Master E.K. invited Sri Parvathi Kumar to carry out with him the task concerning the spiritual fusion of East and West. Sri Parvathi Kumar accepted to accompany the Master on his travels to the West and to share the work with him.

In the years 1981, 1982 and 1983, they travelled together on invitation to Belgium, France, Germany, Switzerland, Denmark, and Italy in order to teach the Doctrines of Wisdom to the Western Brotherhood and to guide the searching souls onto the Path of light.

In March 1984, the Plan took to a sudden turn. Master E.K unexpectedly left his physical sheath and left a great number of unfinished projects behind. Sri K Parvathi Kumar shouldered many tasks and successfully completed them together with the Indian brotherhood.

Sri K. Parvathi Kumar also agreed in taking over and continuing the great mission of bridging East and West. He therefore visited from 18th to 29 September, 1984 the WTT Geneva where he gave lectures about the Yoga of Patanjali, Sri Suktam and the significance of full-moon and new moon.

In the years 1985/86 there were profound spiritual adjustments in the life of Sri K. Parvathi Kumar. Therefore he was not able to visit the West in these two years. It was only in 1987 that he received the inner command to visit Europe again and consequently followed an invitation from the Theosophical Society and the WTT Hamburg, Germany, where he spoke about the Music of the Soul, Gayathri, the symbolism in daily life and healing.

Since 1987, Sri Kumar Garu regularly travels to Europe and since 1992 to South and North America. He teaches the ancient doctrines of wisdom, gives instructions for daily life, introduces individual and group meditations, forms healing groups and explains the science of Yoga. He regularly conducts fire rituals on Thursday, Sundays and on full moons. Besides, he celebrates the Vedic marriage ritual in a simplified version to the inclined Western couples.

He is an excellent interpreter of symbolism relating to various belief systems of the past, like Mayan, Mexican, Inca systems, Celtic and Jewish systems. He carries with him the key of astrology, symbology, etymology, and numerology. He also carries the keys of sound and colour. When he teaches the scriptural knowledge these keys unfold the consciousness in the listeners and makes them joyful. When he teaches there is a magnetic smiling aura that charms people, and the listeners listen with rapt attention. People who are habituated to listening to him are addicted to the charisma of his teaching. **He is essentially a teacher but not a lecturer.**

His work and responsibilities grew from year to year. The Divine Plan is expressed through him in a variety of fruitful works and in a fiery life, of which service and sacrifice are the basis. Everywhere on the planet, he promotes group work and service for the Plan in togetherness. For that purpose he visits groups all over the world, supports, guides and connects them, so that a worldwide networking has been developed which finds its common basis in the World Teacher. He says the ones who have trust in the World Teacher are the members on the World Teacher Trust.

In May 2005, the Master celebrated his 40th international tour, to Greece. During all these years he visited more than 150 places and groups on three continents. His seminars are recorded on more than 1500 cassettes. He wrote more than 50 books, composed innumerable writings and articles and publishes three monthly magazines: Navani, Vaisakh Newsletter and Paracelsus - Health & Healing. His wife, Smt. Krishna Kumari Garu, often accompanied him in his tours and travels. She is a great support in all that he does for the groups and is the power behind. She is very protective of Sri Kumar and takes meticulous care of him. She is a lady gifted with intuition and can feel people almost unmistakably. Some times she even alerts him when he is too amiable. It is not out of place to mention that in relation to his works in the West, Tiziana and Jesus were his intimate companions and Sri Kumar says that they are part of his family.

His great mission is the fusion of East and West of which Madame Blavatsky laid the foundation stone with her two great works *Isis Unveiled* and *Secret Doctrine* at the end of last century. With much positive

dynamism she shows the present religious beliefs and brings them in relation to the ancient and true doctrines of wisdom. She very clearly speaks about the wrong human comprehension of matter and spirit and at the same time reveals the true spiritual values and principles. Later further great initiates such as Sri Rama Paramahansa, Master C. V. V., Alice A. Bailey, Sri Aurobindo, Sri Paramahansa Yogananda, Master E. K came to continue the great mission of Lord Maitreya. They have spread the real spiritual values, wisdom and the service towards the fellow beings all over the globe. Today Master K. Parvathi Kumar (KPK) is one of the great initiates who committed himself to the Divine Plan and works for it in silence and humility.

Master KPK forms the bridge between East and West by linking the Eastern and Western World Scriptures - *Secret Doctrine*, the doctrines by Alice A. Bailey, the *Old and New Testament*, *Mahabharata*, *Ramayana*, *Srimad Bhagavatam* and many more and teaching them in a comprehensive way. Master EK predicted that after him somebody will come who explains his teachings in simple words. Master KPK's classes and teachings are unique and new on the planet. They are a source of inspiration. His main subjects are; the ancient and eternal doctrines of wisdom, meditation, Yoga, astrology, the science of healing, rituals, the profound meaning of symbolism, colour, sound and time cycles.

Master KPK teaches the path of Raja Yoga, the Royal Path. This path is also called the "golden middle path", the balance between the spiritual and the material word. In many seminars, the Master emphasized that both, spirit and matter are equally important. Man must learn to handle both in a suitably way, none may gain the upper hand or be rejected. Therefore the disciple has to do his daily duties by retaining his spiritual attitude in all his activities. Inner and outer tranquillity, composed attitude, compassion, kindness, and the constant orientation to the One are the desirable goals of this Yoga. In order to reach this goal, the Master imparts constructive meditation techniques, gives recommendations for study and stresses the importance of service to the fellow beings.

Master KPK emphasizes the value of marital life, the family and the righteous education of children, because the family is the basis for a healthy society. The Master demonstrated through his own life and teachings that it is possible to unite spirituality and family life. This is one of his great characteristic features, through which he distinguishes himself from other initiates and masters. He demonstrates humanity a new form of domestic, economic, social and spiritual life, whereby he realizes the Yoga of Synthesis in all areas of life.

He himself is an outstanding example for true service, sacrifice, love and goodwill in action. A great number of social projects, free schools in slum areas, distribution of food and free homoeopathic treatment run under his auspices. Untiringly, in silence and secrecy, he works for humanity, treats the sick, helps the poor and needy and consults families. Through him the energies of love, wisdom and goodwill are constantly flowing. In 1985, he founded the Circle of Goodwill, through which the Divine Plan can be expressed by way of social and cultural activities in a well-organised manner. The Circle of Goodwill runs eight schools where children receive free education, hygiene, clothing and food. There are more than 100 homeo dispensaries run by the World Teacher Trust and Circle of Goodwill to give free treatment to people. Besides, it encourages music schools and itself operates a music circle. Furthermore, the Circle responds to natural calamities such as cyclones and wars and provides substantial relief measure. It also gives donations for the promotion of environmental development projects. Service to the fellow beings and the support of the poor and needy is the outstanding matter of concern to the Master. Already as a pupil he committed himself with love and enthusiasm to help the poor and weak people.

On 1st January 1997, he writes: "A world server is one who visualises the One Light in all forms and sincerely serves the Light in every form. The World Teacher Trust seeks to serve the light in form. Its motto is, 'We seek to serve.'

Master KPK has completely consecrated his life to the service of humanity. He heals on all planes of existence, teaches the ancient and eternal wisdom and guides the seeker onto the path of truth. His goal and purpose is to lead humanity to the eternal light.

It is a great gift and a rare occasion to be guided by such a great soul, to be permitted to cooperate with such a Master and to follow him upon the path of service.

We thank you Master with all our heart on your completion of 60 years of life and we wish you many more years of healthy life to enable us to grow into your light through your presence. You are established in us with your ever-smiling countenance. Let it continue to be so.
