He initiates people into the path of Yoga and inspires various groups as a Team of Social Workers.

## **Goodwill**

‘Goodwill’ a noble word, most cherished by Masters of Wisdom. ‘Sat Sankalpa’ is the Sanskrit version of it. ‘Sat’ is Truth and Truth is God’s plan is what Masters know and conduct. Masters are those that surrendered themselves eternally to serving God and His plan. Acts done in tune with the God’s plan, liberate beings.

Lord Krishna taught, how to work in tune with Goodwill. His life is nothing but the enactment of such goodwill through and through. Little humans could understand the Lord when He acted as ‘Krishna’ upon earth. His life has been pristine presentation of goodwill.

The Circle of Goodwill is a flash idea that occurred in 1985 to unite men of Truth and of Goodwill and to channelize their resources into constructive activity. The Society consists of men of Goodwill with varied abilities. To pool such men on one platform and usefully channelize their energies for the benefit of humanity is the chief aim of Circle of Goodwill. The Circle functions with humility and simplicity. Likeminded people are allowed to join the ‘Circle’ and offer themselves to the activity of the goodwill in each and every way they wish to. Goodwill has become thus an open ended activity and suffers no limitation of concept or religion or caste or creed. It is purely meant “to serve life”.

I am glad that the Circle of Goodwill conducted itself during the last 25 years in tune with the original objectives and without change in the quality of vibration. May it be so for posterity.

Befitting the inspiration of the Circle, a devotee of Lord Krishna offered her premises to the activities of Circle of Goodwill. Which incidentally is also called 'Krishna Ashramam'. Acts of Goodwill find their own expansion in so far as the team at work continues to stand impersonal in the light of truth, and in the spirit of service.

I congratulate the entire team of Circle of Goodwill for their silent and selfless services rendered over a quarter of a Century. The team includes not only committed executives but equally committed sponsors, coordinators at work, service volunteers. Qualified and experienced Doctors of different discipline crown the team. It is also laudable to note that the Circle of Goodwill holds infrastructure at minimum cost and utilize every available rupee to service, which is a true Gandhian Principle.

May the Circle grow in Spirit and in strength to serve Goodwill. In their service may the Circle acquire itself in all ways of life and set an example of New Age Service Centre.

## EXPRESSIONS OF BENEFICIARIES

### Word of Gratitude

I was a girl with lots of aims and aspirations. Despite of the fact that I am father less, my education went on without any hindrance as my school recognized me and gave free education. I wanted to become a doctor cum scientist. When I couldn't get the proper rank in EAMCET, the next option I went for is B.Pharmacy, which has better scope for research. Any professional course requires lump sum of money. I was in deep thoughts whether to pursue a professional course or just go for a degree and stop my education.

Then a well-wisher of mine suggested me to apply for the scholarship that are being offered by the "The Circle of Goodwill". Frankly speaking I had no hopes of getting any help while I was applying. To my astonishment, the way the institute responded was tremendous. As soon as they got the letter, they called me and immediate arrangements were made for my educational assistance. I never dreamt I would go for my further studies. But now I am pursuing my final year without any financial stress. This is all possible only because of the Circle of Goodwill and the faith they have in me.

From the encouragement that the institute gave me, I just understood "Goodwill is powerful than God's will". I am proud to be a beneficiary of this noble institute working for a noble cause. May god bless all members of the Circle of Goodwill who are working day and night to lend a helping hand to the students like me. I thank god and the Circle of Goodwill.

B. Pharmacy, 4<sup>th</sup> Year

Sri Padmavathi Mahila Viswa Vidyalayam, Tirupathi

I Gayathri Pingali, a beneficiary of Circle of Good Will finally got an Opportunity to thank my mother. Yes, I said my mother because Circle of Good will has taken great care of me the way a mother takes care of a child. I Can't thank enough Master Parvathi Kumar Garu in my words. All words fall short in front of him and am one of those luckiest persons who got his blessings.

It was in the year 2005, I came to know about Circle of Goodwill through my relatives. The Circle sponsored for my Engineering Education without even seeing me, just after knowing my academic background and situations. I came out with flying colors and got placed in 8 MNC'S in my 3rd year itself and Currently am working with one of the Gaint Organization Google India. I was able to achieve all these things because of the support Given by my Family, When I say family it includes Circle of Goodwill members and my parents too.

Now, I wish only one thing in my life. Not only that i grow and climb the ladder but also help others to climb it and give the necessary support. Let us all join hands together With Circle Of Good Will and strive for its motto.

With Regards,  
**Gayathri Pingali**
